Carry Long Loads
with the Carryall 900
Ground's Maintenance Vehicle

Transporting lengthy, bulky items is a problem with many utility vehicles used in turf or grounds maintenance.

Club Car is partnering with its commercial customers to solve that problem with our new Carryall 900 Ground's Maintenance Vehicle.

The Power You Need. Gasoline models are powered by a 14-hp rated single-cylinder overhead cam engine with electronic fuel injection that gets unsurpassed gas mileage, power and torque. The engine is easy to maintain, and starts right up even in cold weather.

Electric models feature 48-volt battery packs, 500-amp controllers and smart on-board chargers and cord retractors that let you charge at any AC outlet. The chargers issue alerts that prevent common user errors and uncharged cars.

The vehicle comes standard with a bright blue body and gray seats. Premium colors are also available.

ABOUT THE CARRYALL® 900 GROUNDS MAINTENANCE VEHICLE WITH EXTENDED BED

Available in gasoline or electric models, it has a bed length of 98.5 in (250 cm), making it ideal for transporting longer, heavier items and reducing round trips.

Commonly selected accessories include:

- 1 Strobe lights
- 2 Canopy
- 3 Reflectors
- 4 Rear receiver
- 5 Bumper guards
- 6 Dual USB port
- 7 Hinged windshield
- 8 Deluxe LED lights
- 9 Reverse buzzer

Our exclusive rust-proof, corrosion-resistant aluminum frame withstands water, fertilizer and other chemicals found on golf courses, resorts, campuses and other sites.

But other configurations are available based on your unique needs.

Make short work of long hauls on these sites:
